## Education

- 2015 – 2022  **PhD in Natural Sciences, Geography - University of Vienna**  
Dept. of Geography and Regional Research, Geomorphological Systems and Risk Research Group (ENGAGE).  
**PhD. Thesis title:** "Landslide susceptibility mapping at varied scales. Methodological designs adaptations to cope with common input data related challenges".  
**Advisor:** Univ.-Prof. Dipl.-Geogr. Dr. Thomas Glade  
**Link:** <https://ubdata.univie.ac.at/AC16738442>
- 2013 – 2015  **MSc, Geography - Federal University of Rio de Janeiro, UFRJ, Brazil**  
Dept. of Geography, Institute of Geosciences.  
**MSc. Thesis title:** "The Drainage Efficiency Index (DEI) as a subsidy for a spatial analysis of areas susceptible to mass-movements occurrence". (Title translated from Portuguese)  
**Advisor:** Univ.-Prof. Dr. Manoel do Couto Fernandes and Univ.-Prof. Dr. Ana Luiza Coelho Netto  
**Link:** <http://objdig.ufrj.br/16/teses/831103.pdf>
- 2007 – 2012  **BSc, Biology, with a minor in environmental Sciences - Fluminense Federal University, UFF, Brazil**  
Dept. of Biology, Institute of Biology.  
**BSc. Monography title:** "Extreme rainfall events and sediment production in two different forested catchments in the Tijuca Massif - RJ: influences of recovering landslide, roads, and trails on rates of sediment yield and transport". (Title translated from Portuguese)  
**Advisor:** Univ.-Prof. Dr. Ana Luiza Coelho Netto

## Relevant work experience

- 2021 – . . . .  **Researcher; Principal Investigator (PI) at Universität Wien**  **ENGAGE- UNVIE**  
Project leader: Univ.-Prof. Dipl.-Geogr. Dr. Thomas Glade  
Department of Geography and Regional Research; ENGAGE - Geomorphological Systems and Risk Research
- Main activities include:** Handling and integrating a landslide database into predictive modeling using statistical techniques. In addition to these tasks, my contributions extend to writing publications and actively participating in relevant conferences. Tech tools used on a daily basis: ArcGIS, R, QGIS, and Git.

## Relevant work experience (continued)

- 2019 – 2021  **Data Scientist** at Ubiq.ai  [www.ubiq.ai/](http://www.ubiq.ai/)
- Main activities include:** Development of dynamic spatiotemporal models for predicting shared mobility demand (cars and moped fleets) for cities like Berlin, Budapest, Vienna, Dubai, and Washington DC. A significant part of my work involves the pre-processing, engineering, and preparation of large databases for the demand-prediction pipeline. Tech tools used on a daily basis: R, SQL, FME, QGIS, and Git.
- 2019 – 2019  **Visiting researcher**, EURAC, Inst. for Earth Observation.  [www.eurac.edu/](http://www.eurac.edu/)
- 2015 – 2019  **External PhD student** at Universität Wien; Department of Geography and Regional Research; ENGAGE - Geomorphological Systems and Risk Research  [ENGAGE-UNVIE](#)
- Scholarship holder from the *Conselho Nacional de Desenvolvimento Científico e Tecnológico*, CNPq, Brazil.
- 2013 – 2013  **Environmental Analyst** at Terra Nova Escritório de Projetos Sociais e Ambientais.
- 2012 – 2012  **Project employee; GIS specialist** at "Geological-Geotechnical mapping update and evaluation of slope stability of the CNAEA nuclear power plant, Angra Dos Reis, RJ, Brazil". (Title translated from Portuguese)
- 2011 – 2012  **Project employee; GIS specialist** at "Landslide susceptibility and risk mapping of the Angra dos Reis municipality, RJ, Brazil" (Title translated from Portuguese)

## Skills

- Languages  Portuguese - Mother language.  
English - Fluent in spoken and written.  
German - Good comprehension skills, while lower communication ability.
- Computer skills   -R;  -Python;  -SQL;  -Git;  -L<sup>A</sup>T<sub>E</sub>X; Microsoft Office; E-Learning;  -GIS (ArcGIS, ArcPRO, QGIS); numerical modeling (e.g., *r.avaflow*) ...

## Teaching contributions

- 2019 & 2022  University of Vienna: Basics in Earth Surface Dynamics and Management (290023 VU)
- 2020  University of Vienna: Current research spectrum in geomorphology
-  University of Vienna: Scientific Progress in Geomorphology (290212 VU)
- 2019  University of Vienna: Modelling in Physical Geography (290131 UE)
- 2014  Federal University of Rio de Janeiro: Hidrologia aplicada (*Applied hydrology*) (IGG-603)

## Research Publications

### Peer reviewed Items - Journal Articles

- 1 **Lima, P.**, Steger, S., Glade, T. & Mergili, M. Conventional data-driven landslide susceptibility models may only tell us half of the story: Potential underestimation of landslide impact areas depending on the modeling design. *Geomorphology*, 108638. ISSN: 0169-555X.  <http://www.sciencedirect.com/science/article/pii/S0169555X23000582> (2023).
